6/21/71

Mr. David Burke, Administrative Assistant
Senator Edward Kennedy
U.S.Senate
Washington, D.C.

Dear Mr. Burke,

Prior to editing and condensation, my current book, FRAME-UP dealt with more than the King assassination. It then began,

"First framed, then murdered, Robert Kennedy was twice assassinated".

It now seems I was too conservative, that the effort to frame him did not end with his death. Not judging from what I heard on the TV news last night holding him in some unclear way wrongly responsible for the Pentagon reports with which no government can live.

There are, indeed, none so blind as those who will not see.

It is the tragedy of so many important men that they depend on the blind for what they can see.

I enclose a few of the review of the book, a copy of which has been delivered to your office.

Sincerely,

Harold Weisberg
